42" wide

## INSTALLATION INSTRUCTIONS

- Make sure floor and buck openings are level and plumb
- Stand door unit into opening
- Plumb jambs
- Level threshold
- Shim behind each hinge, between jamb and buck
- Install (2) 3" #8 wood screws into each hinge, making sure screws penetrate into wood buck
- Door margins can be adjusted with shims and screws
- Drill holes in sill and head to accept head and foot bolts and strike plates
- Adjust height of sill
- Arch and radius doors should be shimmed between jamb and buck to correct margins

## FINISHING INSTRUCTIONS

- Sand with 180 grit sandpaper
- Wipe down door with mineral spirits
- Apply stain and allow to dry, lightly buff with 000 steel wool
- Apply 1<sup>st</sup> coat marine grade sealer, allow to dry, lightly buff with 000 steel wool
- Apply 2<sup>nd</sup> coat marine grade sealer, allow to dry, lightly buff with 000 steel wool
- Door must be sealed on all 6 sides

## LIMITED WARRANTY

### DOORS

Best Deal Millwork doors have a limited warranty for 12 months from time of purchase, subject to following conditions

- Doors must be installed properly and stained and sealed within 1 week
- Seal of door must be maintained from wear by weather
- Overhang of door must be minimum of ½ the height of door
- Warp on 6/8 doors must exceed ¼" in any plane of door and ½" on 8/0 doors
- Limited warranty does not include labor charges for finishing or installation

### Glass

- Best Deal Millwork warrants the insulated glass for 5 years from date of purchase.
- Warranty does not include seal failure by acts of God such as hurricanes or earthquakes
- Replacement glass will be delivered to our original dealers location.
- Labor charges for replacement are not included in warranty
